

11th International Congress of Andrology

6–9 May, 2017

Copenhagen, Denmark

May 7, 2017: 12:15–13:15 Joint Session Population Council/ICMC

WORKSHOP 3

Advances in Male Contraception sponsored by the International Consortium of Male Contraception (ICMC) and the Population Council

Chair: **Ronald Swerdloff** (Los Angeles Biomedical Research Institute at Harbor-UCLA, USA)

Regine Sitruk-Ware (Population Council, New York, USA) and **David Serfaty** (Paris VI & Paris VII University, France): **Objectives of the ICMC**

Hermann Behre (University Hospital, Halle, Germany): **WHO/CONRAD contraceptive efficacy study with progestogen androgen combination**

Christina Wang (Los Angeles Biomedical Research Institute and Harbor-UCLA Medical Center, USA): **New perspectives on hormonal male contraception—User friendly methods**

Regine Sitruk-Ware (Population Council, New York, USA): **New targets for non-hormonal methods**

The International Consortium of Male Contraception (ICMC)'s mission is to advocate for the advancement of male contraception, and promote collaboration among investigators, government and non-government agencies, industry and interested groups, in order to support further research and development of male contraception; improve understanding of this major unmet need; and promote gender equality in family planning.

The Population Council confronts critical health and development issues—from stopping the spread of HIV to improving reproductive health and ensuring that young people lead full and productive lives. Through biomedical, social science, and public health research in 50 countries, we work with our partners to deliver solutions that lead to more effective policies, programs, and technologies that improve lives around the world. Established in 1952 and headquartered in New York, the Council is a nongovernmental, nonprofit organization governed by an international board of trustees.
